GitHub: <https://github.com/C-CREAD>

TECH STACK

Python, Django, FastAPI, Node.js, PostgreSQL, MongoDB, AWS, Docker, Kubernetes, REST APIs

PROFESSIONAL SUMMARY

Backend Software Engineer with 3+ years of experience in server-side development, database architecture, and API engineering. Specialises in building scalable, high-performance backend systems using Python (Django, Flask, FastAPI) and Node.js. Proficient in relational and NoSQL database design (PostgreSQL, MySQL, MongoDB, DynamoDB), RESTful and microservices API development, containerisation with Docker and Kubernetes, and cloud infrastructure on AWS. AWS Certified Cloud Practitioner with a strong focus on system reliability, security best practices, and efficient deployment pipelines. Proven track record of delivering robust backend solutions in remote, Agile environments.

TECHNICAL SKILLS

- **Languages:** Python, JavaScript (Node.js), PHP, C, C#, SQL
- **Frameworks & APIs:** Django, Flask, FastAPI, Node.js, Express.js, RESTful API Design, Laravel
- **Databases:** PostgreSQL, MySQL, SQLite, MongoDB (NoSQL), DynamoDB (AWS NoSQL)
- **Cloud & Infrastructure:** AWS (Certified), EC2, S3, Lambda, Docker, Kubernetes, Render
- **DevOps & CI/CD:** Git, GitHub, Docker, Kubernetes, Automated Testing, Deployment Pipelines
- **Security & Performance:** API Authentication, Query Optimisation, Debugging, Performance Profiling
- **Methodologies:** Agile, Scrum, SDLC, Test-Driven Development (TDD), Code Review

PROFESSIONAL EXPERIENCE

Backend Developer — Freelance

Self-Employed | Remote, South Africa | *November 2024 – Present*

- Architect and develop server-side systems and RESTful APIs using Python (Django, Flask) and Node.js, enabling scalable and maintainable backend services for client projects.
- Design and manage relational and NoSQL databases (PostgreSQL, SQLite, MongoDB), including schema design, query optimisation, and data integrity enforcement.
- Integrate third-party APIs and services into backend platforms, ensuring seamless data exchange and service interoperability.
- Containerise applications using Docker and orchestrate deployments via Kubernetes, with cloud hosting on AWS and Render.
- Implement version control strategies with Git/GitHub, conduct testing, and apply debugging and performance optimisation techniques to ensure production-grade reliability.

Coding Mentor — Software Engineering & Backend Development

HyperionDev | Pretoria (Remote), South Africa | *January 2024 – October 2024*

- Mentored bootcamp students in backend-focused technologies including Python, Django, Node.js, SQL, Docker, and RESTful API development.
- Reviewed student back-end projects and provided detailed, constructive feedback on server-side logic, database design, API structure, and code quality.
- Collaborated with academic staff to maintain rigorous and consistent assessment standards across Software Engineering and Data Science tracks.
- Supported students in developing strong problem-solving and debugging skills, particularly in server-side and database contexts.

Code Reviewer — Backend & Web Development

HyperionDev | Pretoria (Remote), South Africa | *December 2022 – June 2023*

- Reviewed code submissions across Software Engineering, Web Development, and Data Science bootcamps, with emphasis on Python, SQL, and server-side JavaScript.
- Evaluated back-end logic, database queries, API design, and data handling against clean code standards and industry best practices.
- Delivered targeted improvement recommendations to drive code quality and reinforce backend development fundamentals across student cohorts.

EDUCATION

Software Engineering Bootcamp

HyperionDev | Pretoria (Remote), South Africa | *May 2024 – September 2024*

Graduated with a 99% average score. Covered full-stack and backend engineering, algorithms, database management, API development, and deployment.

Portfolio: <https://www.hyperiondev.com/portfolio/SD24050014934/>

Bachelor of Science in Information Technology

Eduvos | Pretoria, South Africa | *January 2020 – December 2022*

1st Year: 80% | 2nd Year: 75% | 3rd Year: 75%

National Senior Certificate

St Alban's College | Pretoria, South Africa | *January 2015 – December 2019*

Mathematics | English | Afrikaans | Information Technology | Physical Science | Business Studies | Life Orientation

CERTIFICATIONS

- AWS Certified Cloud Practitioner — Amazon Web Services (https://www.credly.com/badges/55ef5fe3-eaaf-4a16-bb0d-dd139b1fb36d/public_url)
- Software Engineering Certificate — HyperionDev, 99% Average Score (<https://www.hyperiondev.com/certificate/5874/certificate-of-completion?intent=view>)

CORE COMPETENCIES

RESTful API Design & Development • Server-Side Architecture • Database Design (SQL & NoSQL) • Cloud Infrastructure (AWS) • Containerisation & Orchestration (Docker, Kubernetes) • Microservices • Performance Optimisation • Test-Driven Development • Agile Methodologies • Code Review & Quality Assurance • Technical Mentorship
